

What Can I Put In My Blue Dry Recycling Bin?

Tips for using your Blue Dry Recycling Bin

- Only materials mentioned on the yes list should be placed in your Blue Recycling Bin.
- All materials should be clean and dry, free of any food/ drinks contamination and compressed where possible.
- There is no need to separate the different recyclable materials. **No need for plastic bags.** (Please put in loose)
- In the interest of Health and Safety Country Clean Recycling Ltd. is not collecting Glass in the recycling bin. Take your glass to your nearest bottle bank.
- Bins contaminated by materials **NOT** on the **YES** list or wet dirty material will not be collected.
- A Rejection Sticker will be placed on contaminated Bins.
- The owner must remove the contamination from rejected Bins.
- Put your bin out for collection on next recycling day contamination free

Remember!!!

Your recycling bin is collected on alternate week to your refuse bin.
Only materials Mentioned on the YES list may be placed in your Blue Dry Recycling Bin.

Remember "if in doubt, leave it out."
